English, Hindi

WORK EXPERIENCE

Full-Stack (MERN-Stack) Developer
Codeformers (full time)
Dec 2023 – present | Nashik, Maharashtra

- Boosted system performance and efficiency through integrated solutions and streamlined frontend-backend communication, employing advanced debugging methods for swift issue resolution.
- Optimized maintenance strategies to ensure system stability and reliability.
- Full-stack development of Accpal (An innovative digital solution uniquely designed to efficiently manage your Tax, Secretarial, and Financial Quality Control needs - developed exclusively by our firm), Zupport & Order management.

MERN-Stack Developer
Webient Technologies (full time)
May 2023 – Nov 2023 | Gurgaon, Haryana

- Developed comprehensive admin dashboards for Pink Apron, Ub-Factory, and The St. Lucian Hub-HubLA Admin Panel, providing intuitive interfaces for efficient management and oversight.
- Exhibited full-stack development expertise by creating a robust live-streaming application using MongoDB, Express.js, React, and Node.js.
- Implemented a significant web3 project using React.js for Bitgert, demonstrating advanced skills in modern web technologies.

MERN-Stack Developer / Frontend Developer
Dashmed (internship)
Apr 2022 – May 2023 | Remote, India

- Engineered robust authentication within Dashmed-web using Next.js, significantly enhancing user authentication flow and overall user experience.
- Established and maintained high-performance, scalable web applications using MongoDB, Express.js, React, and Node.js.

PROJECTS

[1] Accpal ⬈

- Tax processes are mapped and optimized for enhanced control and efficiency.
- Financial statements are automated with streamlined workflows, delivering maximum efficiency and precision.
- Efficient client financial updates ensure streamlined reporting and up-to-date financial visibility.
- System-driven client tax updates ensure proactive compliance and seamless management.

[2] WebTaskit ⬈

- Teamed up with 5 members to develop a task-tracking website, leveraging collective expertise for successful project completion.
- Deployed robust task management functionality, optimizing processes to boost efficiency.
- Facilitated efficient task tracking and allocation, enhancing workflow and productivity.

[3] Pharmeasy ⬈

- Directed the creation of Pharmeasy, offering on-demand access to prescription and OTC pharmaceuticals, greatly enhancing healthcare accessibility.
- Orchestrated the development of a high-fidelity demo project with a cross-functional team of 5 experts, leveraging advanced design and front-end development skills to deliver an innovative, user-centric solution.
